

Peanuts - North Florida

Observation Notes:

Grower reported rapid growth on treated field and much larger nut set

Grower used 14 day interval treatment including Enhancer, Nemasan and OII-YS plus his other nutrient program. The EXACT same nutrient program was applied to both fields at the same time.

Application:

- At planting over the top.
- Then, spray over the top broadcast.
- At day 30, Enhancer with nutrient program
- 14 days later OII-YS and nutrient program
- 14 days later Enhancer
